

Saint Paul and Saint George Island, Alaska Safe Streets and Roads for All (SS4A) Action Plan Transportation Safety Survey Results City of Saint George – August 2024

- **What Transportation Safety Issues are most important to you?**

- Improving roads in town and out of town to help those in need of care or a medevac.
- Fixing street lighting.
- Signage on roads that are in close proximity to cliffs.
- Improving road surface on community roads and areas of Zapadni Bay Road to the airport.
- Not enough heavy equipment for road improvements to help with road safety.

- **Where do you see the most concern regarding Transportation Safety?**

- Lack of street lighting on community roadways
- Old Airport Road has the most difficult road conditions for travel to airport for medevac service.
- Roads in town.
- Road going to airport and roads around the harbor.
- No VPSO to enforce residents who drive too fast or drink and drive.
- Need good roads in case of medevac or for emergency services.
- Improved visibility and lighting during the winter months.

- **Identify any Crashes, Injuries or Transportation Safety Related incidents that you can think of or identify in the community. If possible, please provide date when transportation safety incident occurred.**

-7/4/2024: Truck went off the road on Zapadni Bay Road right outside of town. Driver was impaired but no VPSO or public safety meant there was no enforcement of traffic laws. No injuries were reported, and the individual was able to retrieve their truck the next day.

-Over the years there have been a number of vehicles that have gone off the road headed to the airport; most incidents involved alcohol.

-A couple of years ago a single car accident involving an elderly woman occurred near the post office. The women did not have any injuries and did not seek medical treatment at the clinic.

Street lighting improvements are needed.

Roads in town need transportation safety improvements

Equipment and roads in need of surface improvements

Areas of road to airport need improvements
